

FIND THE OPTIMAL SOLUTION FOR YOUR NEEDS

With hundreds of service providers to choose from, each offering dozens of different products and plans, the options for local, long distance and data services are mind-boggling. At American Business Communication (ABC), we've got our finger on the pulse of the industry, so you get optimal services—at the best prices. ABC will assist you in selecting the right carriers for your individual business needs.

Our experts:

- Review alternative local providers and costs
- Analyze long distance and data usage
- Negotiate the most competitive agreements – without sacrificing quality and service

And ABC can maintain product and price integrity through ongoing telecommunications management services.

A PARTNER YOU CAN TRUST

Instead of trying to stay on top of the ever-changing plans, options and prices, you can rely on ABC. Our extensive industry experience and savvy negotiating skills allow us access to information across the country to aggressively negotiate the best contract for your needs.

We'll even set up Request for Proposals (RFPs) based on your specifications, then evaluate and compare proposals "apples to apples" before presenting our findings to you in an easy-to-understand format. Because ABC works independently from all telecom vendors, our recommendations are not compromised and are based solely on your best interests.

INSTEAD OF TRYING TO STAY ON TOP OF THE EVER-CHANGING PLANS, OPTIONS AND PRICES, YOU CAN RELY ON ABC.

"ABC has been an excellent partner in helping manage our telecom costs. They are not partial to any one vendor and are truly looking out for our best interests."
